Hello,

We have looked at the edits and agree with all of them. The only thing we did is to move the new language on the blood testing to a different section. We've attached a red-lined version containing only the most recent edits to this email.

At this point there are no outstanding questions from our side. However, we are open to another meeting if CDC thinks that would be helpful.

Otherwise our plan is to send a revised signed memorandum to the group. Mike is currently out of the office, so we would send the updated document early next week.

Wiebke

Hello Ben and Aaron,

Thank you for providing these additional comments. Based on a cursory look it appears that any remaining changes to the document are straight forward, especially since Aaron suggested specific language.

We're expecting to send a revised document back to you soon. Maybe at that point we can reevaluate and decide if another meeting would be useful.

Best regards,

Wiebke

Hi Wiebke,

Please see attached a few additional comments provided by Aaron. Sorry for the delay in responding!

Thanks,

Ben

Hello,

We have now finalized the revisions to the arbovirus memo. We have accepted all of your in-text changes and have (hopefully successfully) addressed your comments by revising the memo in several places.

Also attached is a red-lined version of the final memo (Word file) that shows the changes that were made as well as responses to your comments on the draft memo.

We have signed the memorandum and have attached it to this email for your signature.

With best regards,

Wiebke
